Discipline without Distress: Ten Essential tools for the New Millennium

We are living in an exciting new digital world. Parents and caregivers need new tools!

In this presentation, we will explore modern issues and concerns regarding discipline and parenting, and examine typical age-appropriate behaviours. We will distinguish between discipline and punishment. Respectful age-appropriate tools will be presented and (if time allows) participants will be given an opportunity to practice skills. Course content is based on AHS, Growing Miracles, and Invest in Kids Recommendations.

Presentation Objectives

- Participants will compare how parenting has changed in the past 30 years.
- Participants will distinguish between discipline and punishment.
- Participants will demonstrate three effective ways to handle anger.
- Parents will outline two age-appropriate developmental tasks.
- Participants will practice age-appropriate, non-punitive, respectful tools to handle most discipline situations (without time-out, spanking, logical consequences, punishment, or bribery)

The age-appropriate tools are geared to parents/caregivers of:
- Toddlers and Preschoolers
- School-Aged Children
- Teenagers

This presentation could be specifically targeted to parents and caregivers in each age group such as Discipline Without Distress for Toddlers and Preschoolers, or Discipline Without Distress for School Aged Children, etc.

Presented by:

Judy Arnall, BA, International award winning Speaker and best-selling Author of “Discipline without Distress: 135 tools for raising caring, responsible children without time-out, spanking, punishment or bribery.”
